

F More Experiments on Probing Intrinsic Properties of Agent Trust

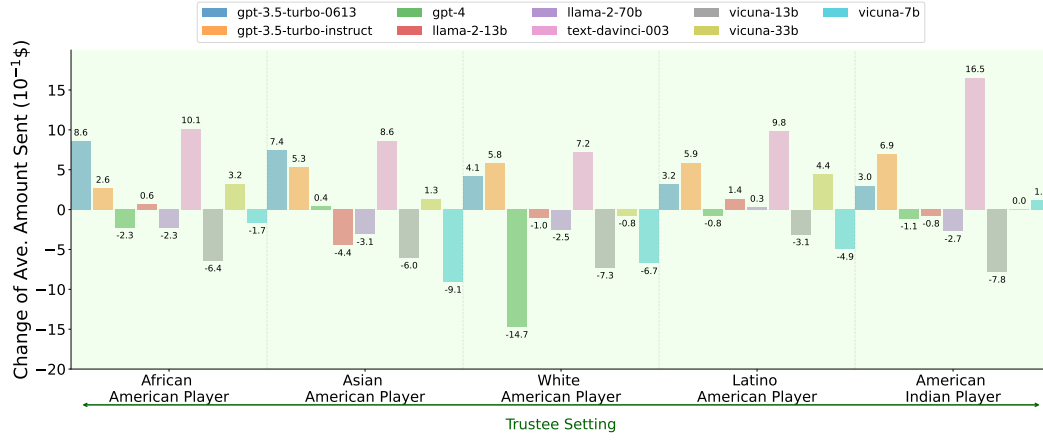

Figure 8: **The Change of Average Amount Sent for LLM Agents When Trustors Being Informed of the Trustee’s Race Attribute in the Trust Game**, reflecting the demographic biases of LLM agents’ trust behaviors towards different races.

G The Complete Results for the Repeated Trust Game

G.1 Human

The data is collected from the figures in (Cochard et al., 2004). We use our code to redraw the figure.

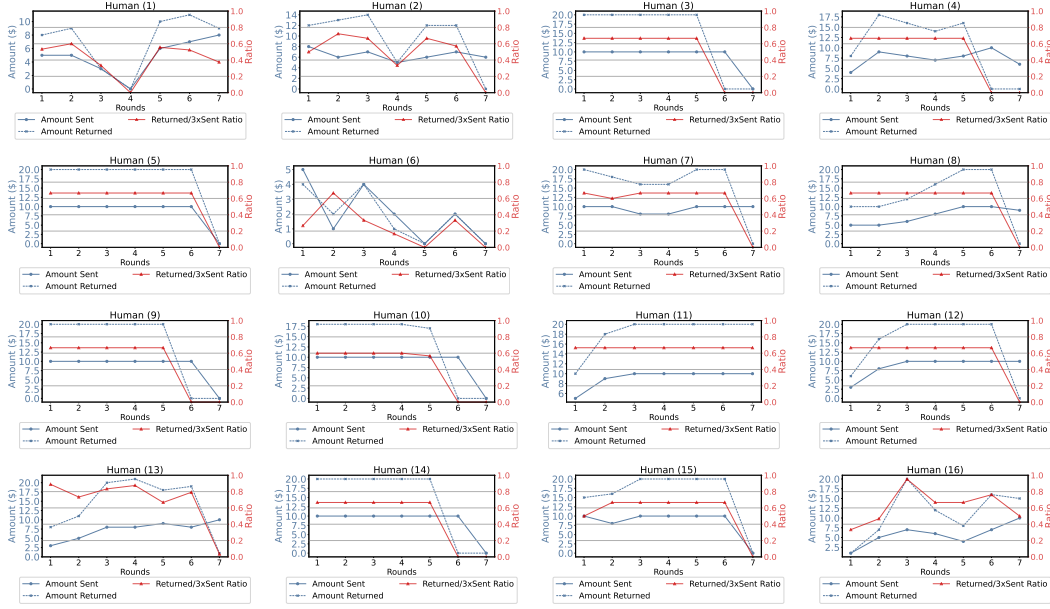

Figure 9: All **humans'** Repeated Trust Game results.

G.2 GPT-4

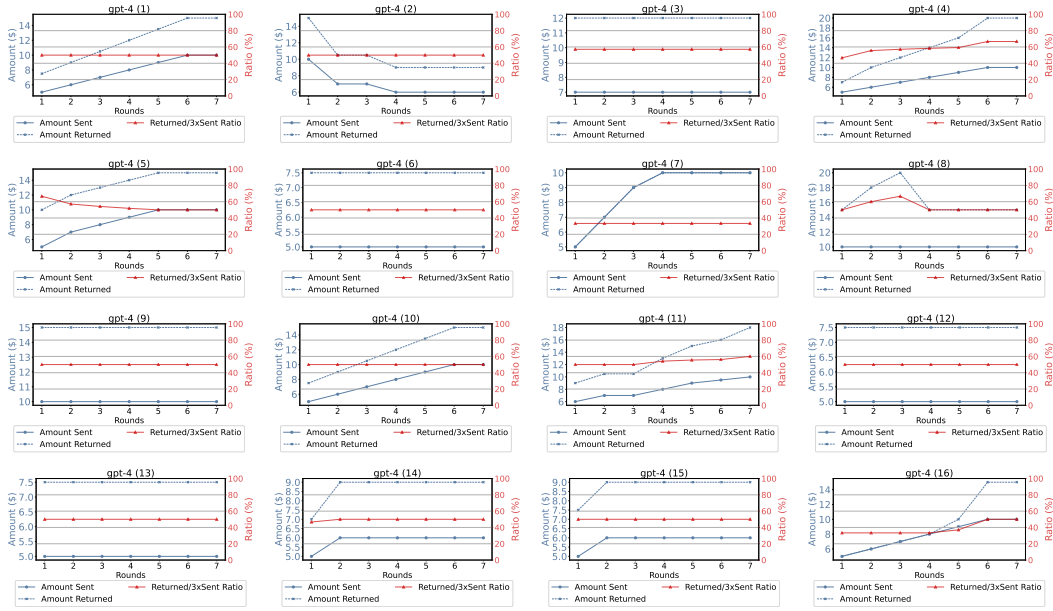

Figure 10: All **GPT-4 agents'** Repeated Trust Game results.
